

*The premier source for Robotic Surgery.*

Monroe Surgical Hospital offers the Genius™ 3D Mammography™ exam! For more information, call Monroe Surgical Hospital today at (318) 410-0002, ext. 31204.

#### For Patients:

Mammography exams can be scary experiences, providing uncertain results which lead to unnecessary and frightening callbacks.

The Genius™ 3D Mammography™ exam detects 20-60% more invasive breast cancers, which means you can catch any abnormalities as early as possible, and reduces callbacks by 40% by being more accurate.

This technology allows your doctor to view an accurate model of the tissue in your breast, creating a more detailed picture of potential masses. A 2D mammography is like looking at the spine of a book. You know the rough details of the book, but can't see the individual pages. The Genius™ 3D Mammography™ exam essentially opens that book up, allowing each page to be examined.

More information leads to fewer errors, fewer call-backs, and less uncertainty. Genius™ 3D Mammography™ exam is the optimal choice for your mammography needs.

#### For Providers:

Your patients deserve the best treatment and most accurate results. In a survey of patients who had a Genius™ 3D Mammography™ exam after having a traditional 2D mammography:

98% felt more confident in the results of their exam

93% felt less anxious

91% felt the quality of care was higher

94% would request the Genius™ 3D Mammography™ exam at their next appointment

The Genius™ 3D Mammography™ exam is the clear choice for your patients' needs. Call Monroe Surgical Hospital today at (318) 410-0002, ext. 31204 to talk about how we can help you.
